3G-RC1111XTR
 1 LIGHT TRIMLESS
 LOW VOLTAGE AR111

CONSTRUCTION

- New construction housing and electrical enclosure constructed in cold rolled steel
- Aluminum mudding flange features a unique 1/2" inner reveal that emulates drywall to create a perfect looking cut-out every time
- Integral aluminum blocking support ensures fixture is properly secured into the ceiling structure
- Gimbal rail assemblies snap into place without the use of tools
- Housing design includes discrete ventilation slots for cooler fixture operation
- A ceiling thickness of 1/2" to 1" can be accommodated. Modified for thicker ceilings upon request
- Modified configurations available upon request

ELECTRICAL

- Integral electronic transformers
- Electrical enclosures conveniently mount into the side of the housing via 2 thumb screws
- Removable snap-in gimbal assembly allows for access to transformers for easy maintenance
- Transformers are dimmable and multiple circuits available
- Wattage restriction labels are standard
- Fixtures are thermally protected and rated for through branch wiring

LAMP ASSEMBLY

- Lamps mount into solid aluminum adjustable double gimbals
- 45° x 45° lamp adjustment does not require the use of tools
- Can accept up to 3 optical accessories for AR111
- Lamp position within the housing can be modified upon request

MOUNTING

- Suitable for drywall ceilings
- Butterfly brackets and C Channel bars included
