

SIMPLICITY OF FORM. OUTSTANDING VERSATILITY.

pendant kubo

3G's Kubo Collection includes pendant, surface mounted, and recessed architectural luminaires in square and linear configurations. The entire series features white sandblasted acrylic diffusers that are fabricated with 45 degree mitered corners. Each diffuser is fully saturated with a variety of lamp sources including fluorescent, white LED, static colors, and color changing LEDs.

This clean, crisp and distinctive series of lighting fixtures offer outstanding performance and versatility. The attractively simple design lends itself to all types of environments: traditional, modern, or anything in between. Diffuser options range from faux alabaster to marble acrylic to any other commonly available acrylic material.

The pendant Kubo collection is available in single, linear, multiple square, and multiple linear configurations with adjustable aircraft cable suspension. This series of pendants can be modified or completely customized to meet virtually any design requirement.
